COLOUR CARD
PRE-AGING

Pre-Aging

A look from the past, thanks to a product from the future

Pre-Aging is a high-quality, non-reactive pre-treatment that creates the look of reactive stains, but without the drawbacks. It is always combined with Oil Plus 2C. Pre-Aging is available in 10 standard colours, ranging from a lighter to a darker smoked look, including the warm, green/brown undertones that are so popular. All colours can be mixed with each other, so that the customer can get exactly what they want.
