

RUBIO MONOCOAT IS DEDICATED TO PEOPLE AND THE ENVIRONMENT

Ever since we started with Rubio Monocoat, our goal has been to make **healthy and VOC-free products**. To achieve this, we use sustainable raw materials such as **linseed and wax**. These efforts have often been rewarded with **certificates** such as GREENGUARD GOLD, Eurofins Gold, etc. Eurofins tests also show that certain products in our range are **food and toy safe**.

In addition, our unique **molecular binding technology** offers many **ecological advantages**: low consumption, small production site, less packaging, less transport, ... Rubio Monocoat has always been committed to the **environment**. Now we want to go a step further and **become net zero by 2030** (scope 1, 2 and part of scope 3: waste & commuting). For instance, the vehicle fleet will be completely electrical and 30 additional electric company cars have been provided for employees. We are also contributing to a brighter future with 418 solar panels on our roof.

Finally, we focus a lot on our materials for **packaging** as well. Our packagings are already very ecological, with our metal cans **completely recyclable** and our use of recycled materials for padding paper, cardboard boxes, catalogues, ... Moreover, we are transitioning our recyclable plastic packagings to recycled ones. Lastly, we are evaluating all our new packagings, products and tools for **sustainability**.

INTERNATIONAL CERTIFICATES - OIL PLUS 2C

GREENGUARD GOLD

- ✓ Only awarded to indoor products that comply with very strict standards
- ✓ VOC free:
 - › Safe for the environment and human health
 - › Safe for schools and healthcare facilities

EUROFINS INDOOR AIR COMFORT GOLD

- ✓ We are the first in the wood treatment sector to receive the certificate
- ✓ The label unites the most relevant emission specifications and requirements in Europe and proves that we contribute to a healthy environment

Also valid for Universal Maintenance Oil, Universal Maintenance Oil 2 Mix, SheenPlus

FOOD CONTACT COMPLIANCE - EUROFINS

- ✓ We comply with the European Regulation EC 1935/2004
- ✓ This means that our oils can be used on wood that comes into contact with food and is safe for household use (recommended increasingly for a lot of projects): cutting boards, kitchen worktops, tabletops, ...

Also valid for Universal Maintenance Oil, Universal Maintenance Oil 2 Mix, DuroGrit, SheenPlus, Invisible Protector

EN 71-3 (EUROPEAN GUIDELINE)

- ✓ We comply with the European Regulation EN 71-3 for toys
- ✓ Positive evaluation of the migration of certain hazardous elements like barium, cadmium and mercury etc. in different types of toys
- ✓ Our indoor products that comply with standard EN 71-3 are also safe for children

NATIONAL CERTIFICATES - OIL PLUS 2C
